FLIP 800DF UNIQUE CHEMISTRY FOR TERMITES AND OTHER DIFFICULT PESTS

Trinidad and Tobago #1 termite defense, low-dose treatment, with virtually no odor.

The unique “Transfer Effect”, means affected termites help passes Flip on to their population before dying.

Starts working immediately, and completely rids homes of termites faster than any other liquid or bait product.

MODE OF ACTION: CONTACT AND TRANSFER EFFECT

Flip 800DF mode of action is through ingestion and contact. Kills termites that contact other termites which have pass through the treated area.

CONCENTRATION FOR USE

Soil Treatment: Use at the rate of 0.1% for walls, or a 50 grams bag per 17 gallons of water. Drop water soluble polyalcohol bag into the tank follow label instructions.

APPLICATION METHODS

Application is done by injecting solution into the walls until saturation. Follow label instructions.

FORMULATION

Flip 800 DF is formulated as water dispersible granules. This formulation has been researched especially for the treatments of walls. Particles size in suspension offers greater persistence in masonry. It has no solvent makes it ideal to treat all kinds of materials without staining or odor. Flip 800DF is sold in water soluble bags made of polyalcohol which dissolves rapidly in water. Tear open the paper package and drop the water soluble polyalcohol bags directly in to the tank mix without coming in contact with granules.

"Innovative, Cost Effective Termite Control"

PACKAGING

Flip 800DF is packaged in 10Kg cases containing 200 water soluble packages of 50 grams each.

ADVANTAGES

- New Chemical Group and innovative chemistry.
- Controls major groups of termites; Coptotermes, Nasutitermes, Heterotermes, Reticulitermes and others.
- Has Potent Domino effect quick action
- Highly effective at low rates
- 5 year control guarantee
- Low odor formulation
- Lower environmental impact, no leaching on to soil and a lower risk of ground water contamination.
- Versatility: can be used both as preventative and curative treatments as well as pre and post construction.

TRINIDAD & TOBAGO # 1 TERMITE DEFENSE

Determining which termite control product is best for your home means considering a number of factors. Needless to say, you want a product that works effectively beyond doubt. You want to know it is manufactured by a company that cares and stands behind its product.

You could spend a great deal of time looking for a termite control product that meets all these criteria. Or, you could look to the one that has already been determined to do so by thousands of homeowners just like you: Flip 800DF termiticide/insecticide. It's Trinidad #1 termite defense product, and when you choose it, you can rest assured you've made the best choice possible for your home.

In numerous trials across the world, Flip termiticide/ Insecticide has consistently proven to be extremely effective at eliminating termites in structure. It has also proven to be equally effective at preventing future infestations and damage.

Flexible application options allow your pest professional to determine what type of Flip 800DF termiticide/insecticide treatment will work best for your particular situation.

FLIP® 800DF

TERMITICIDE / INSECTICIDE

PRODUCT DETAILS

Flip 800DF is an insecticide of the Phenyl Pyrazols group, formulated as dry flowable that acts as contact and injection insecticide with quick action. It does not have systemic or fumigant activity. It is required to provide a continuous chemical barrier to prevent termites from attacking the wood. A licensed technician is recommended to apply this product familiar with trenching, rodding, sub slab injection, low pressure banded surface treatments and foam delivery techniques.

With the unparalleled efficacy of the Flip 800DF brand Termiticide/Insecticide is highly effective in preventing and/ or controlling a variety of subterranean termites. In addition to termite control, Flip 800DF Termiticide/Insecticide can control other problematic pests (refer to label for full list), including ants, beetles, centipedes, and cockroaches and crops pests.

Flip 800DF effectively control termites with application rate of 0.06% Fipronil, which is a rate significantly lower than that of other insecticides. Also, in mammalian toxicity is lower when compared with other widely used termiticides.
